

Compostable Plates with Compartments - 9" X 9" X 0.75" / White / 3 Compartments

Our bagasse plates, bowls and containers are made of 100% sugarcane fiber, a sustainable, renewable, and biodegradable material making it a great alternative to traditional paper or plastics. Sugarcane pulp is hygienic and green and is 100% biodegradable in 90-180 days while bringing quality to our take-out containers that are built stronger than paper or cardboard food boxes. Our bagasse compostables are made with BPI Certified material, which is cut resistant, strong enough to hold all kinds of food without bending or breaking.

Key Features

- Leak free, sturdy, stackable and engineered for heavy duty use
- Eco-friendly soak-proof, dual-tab, leak-proof, and a sturdy alternative
- Meets ASTM D6400 and/or D6868 for Compostability
- FDA Approved For Food Contact
