

GREASE TRAP MAINTAINER

CODE: ENV-2008

Specifically designed to degrade organic waste, reduce odours and maintain healthy biological performance in drains, drain lines, grease traps and grease interceptors. Excellent for use in restaurants, food processing facilities, and industrial kitchens.

USAGE

Grease trap maintainer is applied using a metering pump and requires no preparation.

ACCESSORIES

Knight Pro-Watch 510XT

KEC-860039101

To dispense GTM at desired flow rate

Microprocessor 24 hour clock control system w/real time battery backup, 20 events per day programmable in minutes and seconds. Features a KP-5100 Pump. With pre-wired built-in step down UL-Transformer.

Safe and effective cleaning products can be made completely cruelty-free. We perform no animal testing and none of our ingredients contain animal products or by-products.

2 BILLION BACTERIA PER ML

APPLICATIONS

- Grease traps
- Grease interceptors
- Drain lines

PROGRESSIVE SCIENCE

Strain A

- Active at pH levels as low as 4.25
- Fast germinating strains produce enzymes that efficiently breakdown polymers, proteins, carbohydrates, fats and oils

Strain B

- Digests volatile fatty acids and efficiently degrade hydrocarbons
- Demonstrates high antifungal activity

Strain C

- Tolerant to toxins and areas of high contamination
- Produce biosurfactants to reduce surface and interfacial tension

100% BIODEGRADABLE

WHAT DOES GREASE TRAP MAINTAINER DO?

- Controls fat, oil and grease build-up
- Improved effluent quality and reduces the BOD and COD
- Increases system efficiency and extends drain life

GENERAL DOSAGE INSTRUCTIONS

SHOCK DOSAGE

10 ounces of the product is applied using a metering pump. Shock dosage is applied for 2 weeks.

* Shock dose establish healthy bacterial population

* Subject to change to the condition of treatment area

MAINTENANCE DOSAGE

5 ounces of the product is applied using a metering pump. Maintenance dosage is recommended year-round and applied daily during slow hours.

* Maintenance dose optimize the established bacterial population in the event of increased water volume, flowrate, etc.

storage & PRECAUTION

 Store in a dry, cool, well-ventilated area

 Store away from direct sunlight and heat

 Store away from harsh chemicals. Keep out of reach of children.

SHELF LIFE: minimum 1 year from opening

Do not ingest; Avoid excessive skin contact.
For more information or Safety Data Sheets (SDS) please contact us or see our website

PACKAGING

Available in:
20L pail

SPECIFICATIONS

DESCRIPTION Pink liquid

WORKING pH 6-9

BACTERIA 200 billion per gallon

NUTRIENT Biological nutrients and stimulants
